• Tracked progress and ensured smooth completion of tasks through consistent monitoring and adjustments.

Experience

Full Stack Internship-SmartBridge — **Jan 2025-April 2025**

- Worked on a group project for an e-commerce platform, where my primary responsibility was data analysis to identify trending and non-trending items based on product and user data.
- Analyzed datasets to support decisions on which items should be listed or removed from the platform.
- Identified and handled duplicate items in the dataset to improve data quality and accuracy of analysis.
- Performed data cleaning, validation, and basic trend analysis to extract meaningful insights.
- Collaborated with team members to communicate analytical findings and improve project outcomes.

Extracurricular Activities

- **Dr. G Viswanathan Challenge** -21 days (completed)
- **Hacker Rank Achievements:** 5-Star in Java ,5-star in c++

Certifications

- Get the Most Out of Jira – Atlassian University (In Progress, Expected Completion: 2026)
